

## **Application for Breeder/Supplier Accreditation**

In the Brussels-Capital Region, and in accordance with European legislation, animal experimentation is strictly regulated: the animals used for experiments benefit from legal protection and all establishments, approved in advance, are subject to controls.

Whether they are mice, rats, hamsters, guinea pigs, gerbils, rabbits, frogs, zebrafish, non-human primates, dogs or cats, they must be specially bred for the experiment. These animals can therefore only come from approved suppliers or breeders and their housing conditions are highly regulated. If the animals have not been specifically bred for experimentation and are still to be used, a derogation must be requested in advance.

On the following pages you will find an English translation of the French and Dutch applications.

This English application is only there to help you understand how to fill in the application but you must use the Dutch or French form.

## Application for Breeder/Supplier Accreditation

*In accordance with Art. 13 §1 of the Royal Decree (RD) of 29 May 2013 on the protection of experimental animals, any breeder or supplier must submit an application for accreditation as referred to in Article 22 of the Act to the Minister by registered letter without prejudice to the provisions of Article 41.*
