Brussels – January 2017

Towards sustainable, comfortable and safe mobility

ING's Environmental Ambition

↓ **CO2 emissions by 20% in 2020***

"We encourage employees to reduce business trips by car and airplane. We encourage and facilitate videoconferencing instead of travel when possible as well as proactively providing more environmentally friendly means of travelling, e.g. fully electric vehicles and public transport. ..." [ING Groep](#)

Double our impact, halve the ecological footprint

"Today, our car fleet emits on average 111 grCO2/km which is already better than Belgian average (123 grCO2/km), but still accounts for most of our CO2 emissions."

ING

“Laat de keuze aan de gebruiker”

Met meer dan 6.000 werknemers in Brussel alleen staat het thema mobiliteit bovenaan de agenda bij ING. De bank doet er dan ook alles aan om zijn werknemers zo efficiënt mogelijk te laten pendelen, door tal van transportopties te bieden. Welke dat zijn, ontdekten we tijdens een verhelderend gesprek in het hoofdkantoor te Etterbeek.

Question

Muguel, L. (Laurent) asked a question: @Green Mobility @ ING.BE Question to the Tesla owners: Did anyone of you used the provided cards to be used for charging on non Tesla Supercharger??? I tried this week end on one of the charging point of Blue Corner in Knokke and it did not work (after following the procedure and swiping my card) I was asked to contact my supplier...???

Thijs, W. (Willy) Like Guirec earlier. I used an orange electric bike to go to a symposium in the centre of Brussels (coming from Sint Michielsvaranede) And I do agree with Guirec: it was a marvelous experience: a smooth ride, no sweat, no traffic or parking issues. Returning from the venue was a bit harsher: road was wet and traffic horrible due to the European summit. But hey, even that went fine! It took me about 20 minutes to ride it in.

Only one message to the colleagues of @BE-CYCLING @BE-Sustainability @Green Mobility @ ING.BE just find a way to make these E-bikes easier to access, and perhaps add a helmet and orange fluo jacket to the offering!

You and Van Ertvo, S. (Sylvaine) like this.

De Biolley, G. (Guirec) @BE-Lending & Insurance Services: Today, I used one of the brand-new ING orange electric bikes. The result is impressive: less than 10 minutes from parking CS&M to parking Marni, no traffic jam, no waiting time and... no sweat :-). Great mobility experience!

Want to try it too? Just send a mail to the mailbox 'HR_GEM@ING.be'
